

Montair Elementary School 2007 Climate Survey Results -- Overview

In the spring of the 2006-07 school year, Montair Elementary School conducted an online climate survey. In this survey, parents, students and staff were asked to respond to questions related to academics, campus safety, respect, and communication as these relate to the school. The results of the 06-07 climate survey are published here.

This data is valuable to us as we make decisions on how we can improve our school. We are reviewing this data and will be administering the survey again in the spring of 2008. By holding the survey annually, we can monitor our progress in serving our school community.
